

## E180F

### Deck mount

This universal deck mount is delivered as a complete kit including EPDM rubber gasket for ingress protection and M6 x 50 mm bolts. The supplied bolts allow for a deck thickness of up to 36 mm.

The mount is intended for applications where the coaxial cable is protected inside the mount and cable feeding through the deck.

#### Mechanical Specification

Material	Stainless Steel (SS316)
Finish	Polished
Weight (kg/lbs)	0.65/1.45
Mounting method	Deck mount
Thread	1 1/4"-11 TPI, external

#### This part fits

This product fits all AC Antennas products with an internal 1.25"-11 TPI threads, which is ideal for the N240F revolving nut. Hence this mount fits antennas such as the CX4, CX3 5/8 and Cellular antennas.
